Circular economy and
entrepreneurship to
boost VET students'
employability &
resilience

CIRCULAR ECONOMY & ENTREPRENEURSHIP TO BOOST VET STUDENTS' EMPLOYABILITY AND RESILIENCE

Our project proposes a programme that will help young people and VET students in particular to know more about circular economy and entrepreneurship and use them as motivator for personal improvement.

During the project, the partner will create micro-lessons on circular economy, entrepreneurial skills, and other transversal skills that are key to boost their ability to compete on the labour market.

The project responds to the 2030 Agenda for Sustainable Development under Goal 8 on “Promoting sustained, inclusive and sustainable growth, full and productive employment and decent work for all” and is also directly linked to SDG 4 on education. Developing skills needed for a sustainable economy is already recognised as a critical business issue and even if society and companies are moving toward a greener economy, embedding sustainability or ethical business practices into companies' business is more challenging than just “help the company go green”.

THE ONLINE LIBRARY

SKILLS FOR THE 21ST CENTURY

AN ONLINE LIBRARY TO
SUPPORT STUDENTS IN
INCREASING EMPLOYABILITY
SKILLS AND SUPPORTING THE
TRANSITION INTO THE WORK
MARKET.

»»» BENEFITS FOR VET SCHOOLS

The library information and resources relieve educators of content preparation, enabling a focus on skill facilitation and validation. These materials address employers' needs and foster skills relevant to positive corporate impact, enhancing knowledge of sustainability, circular economy, and entrepreneurship for issue-solving proficiency in their profession.

BENEFITS FOR VET STUDENTS <<<

Students gain enhanced soft and transversal skills, key 21st-century labor market competencies with a circular economy perspective. They learn to adapt to future uncertainties with improved problem-solving skills, and a heightened sense of their long-term impact. This also elevates employability and sustainability awareness, fostering circular economy expertise for a greener lifestyle in alignment with EU27 objectives.

THE LIBRARY OFFERS MICRO-
LESSONS, VIDEOS,
PRESENTATIONS, GAMES, AND
EXERCISES THAT CAN BE
ASSOCIATED WITH ANY CLASS OR
SUBJECT IN THE CURRICULUM.

»»» LEARNING OUTCOMES <<<

- increased key competences and employability skills needed in the labour market
- enhanced soft skills and other transversal skills
- increased capacity to analyse issues and manage work activities understand the bigger picture
- the ability to recognise issues connected with sustainability in their work
- enlarged understanding of circular economy practices and skills
- fostering of an entrepreneurial mindset in line with the EU27 objectives

COMMUNICATION

Ability to express oneself clearly, listen to others, be aware of nonverbal communication and body language, keeping emotions in check; Ability to adapt based on the audience.

PROBLEM SOLVING

- Solve issues quickly and effectively, having a greener, inclusive and socially equal solution in mind;
- Identify and assess individual and group strengths and weaknesses.

SELF AWARENESS AND SELF EFFICACY

- Being self-driven, taking the initiative, being self-resilience
- Believe in yourself and keep developing.
- Reflect on your needs, aspirations and wants in the short, medium and long term.

ETHICAL & SUSTAINABLE THINKING

Assess the consequences of ideas that bring value and the effect of entrepreneurial action on the target community, the market, society and the environment

ABILITY TO MANAGE DATA & DIGITAL TECHNOLOGIES

- Organise, store and retrieve data effectively; identify credible information from unreliable information
- Communicate and collaborate with others through digital technologies.

CRITICAL THINKING

To assess information and arguments, identify assumptions, challenge the status quo, and reflect on how personal, social and cultural backgrounds influence thinking and conclusions.

DECISION MAKING

Demonstrate an ability to identify all the options and compare them in terms of cost and effectiveness. Knowing how to read the situations to deal with them in case of need

ENTREPRENEURSHIP

To have the ability to develop one's green start-up or initiative, to promote independence, and to provide green solutions that will eventually become dominant in the business sector.

FINANCIAL LITERACY

Understand the fundamental concepts related to money management, personal finance, and economic systems, enabling individuals to make informed decisions about their finances and participate in economic activities effectively.

We have now started working with schools and vet educators to validate the Resources prepared.

CONTACT US

The partners are about to organise a pilot of the program in their city. They are working to present the library and the educators' manual to their colleagues, VET schools and other stakeholders in their community.

If you are interested, you can be part of the testing program. just contact the partner nearest to you to have more information!
